

# Accessibility of the Green Cottage

## **Introduction**

Barnacre Green Cottage is all on one level with generally good access for those with limited mobility. All doorways meet current building regulations for accessibility.

## **Pre-arrival**

Most bookings are made via the internet booking but telephone bookings are also accepted

## **Arrival & car parking facilities**

Car parking is immediately in front of the cottage with a private, stoned drive.

## **Main entrance**

The front door is right beside the drive and has a single threshold of around 10cm (4 inches) with no steps.

## **Public areas – hall, corridors, sitting room, lounges, lobbies**

The cottage is all on one level with no steps. It has a natural sandstone floor which has a hard, riven surface which is naturally slightly uneven. All doors are wide enough for standard wheelchair access. All sockets and light switches are to modern building control regulations so can be reached when sitting.

## **Leisure facilities**

The swimming pool door is 10 metres from the cottage. There is a single step to get in to the pool building [across a stoned courtyard]. The pool is 1.2m (4 feet) deep. There are steps into the pool but those with limited mobility or strength may need assistance to get in and out.

## **Bedrooms and sleeping areas**

These are spacious with easy access around beds.

## **Bathroom, shower-room & WC (en suite or shared)**

The toilet is a standard toilet with no grab rails. The shower is over a standard bath.

## **Self-catering kitchen**

The kitchen area is open plan with the dining area. The kitchen is a standard kitchen.

## **Grounds and gardens**

The private enclosed courtyard is stoned and so a little uneven underfoot.

## **Additional information**

We have had many guests with limited mobility and always welcome suggestions of ways to improve your stay.
